

CacheEntry

```
classDiagram
    class CacheEntry
    class APCCacheEntry
    class FileCacheEntry
    APCCacheEntry --|> CacheEntry
    FileCacheEntry --|> CacheEntry
```

The diagram illustrates a class hierarchy. At the top is the 'CacheEntry' class. Below it are two subclasses: 'APCCacheEntry' on the left and 'FileCacheEntry' on the right. A horizontal line connects the two subclasses, with a vertical arrow pointing upwards from the center of this line to the 'CacheEntry' box, indicating that both subclasses inherit from the base class.

APCCacheEntry
